

The Pap Kit Choice for Greater Reliability, Simplicity and Economy

Andwin's Safetex line of Pap Smear Specimen Collection and Transport Kits feature several vital innovations that make these products the most protective courier folder kits in the world.

Patented **No-Touch** kits feature a ventilated flap-cover design that allows wet slides to dry more quickly and reduce the risk of specimen transfer from the slide to the folder. To prevent the possibility of optical interference during specimen examination, patented **No-Touch** kits use no tape or glue to hold the slide in place.

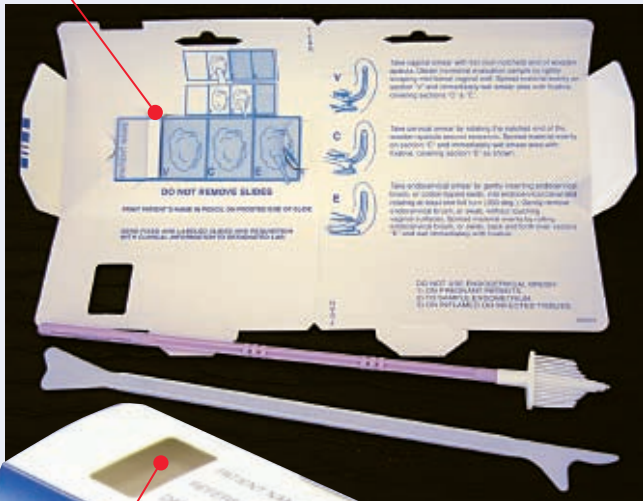

Also featured are economical **Classic** kits, new **Liquid Transport** kits and a selection of related consumables.

- ***Classic and Patented No-Touch Kits***
- ***Single and 2-Slide Kits Available***
- ***Custom-Component Kits Available***
- ***Latest Technology Collection Devices***

Safetex *No-Touch* PAP Smear Kit

- Maximize slide specimen protection
- Wet slides are allowed to dry by the ventilated folds
- No tape or glue used to hold the slide to the folder
- Available with fixative pouch or spray bottle

Patented adhesive-free No-Touch slide holder design.

Patented Slide I.D. viewing window.

Patented arched and vented closures allows faster drying and maximizes slide specimen protection.

Safetex *Classic* PAP Smear Kit

- Economical choice in Pap smear kits
- Wide selection of cytology components
- Glue used to hold the slide in place
- Available with fixative pouch or spray bottle

Standard glue slide holder attachment.

Classic kits feature standard box-shaped transports and are the most economical choice.

Safetex Liquid PAP Smear Kit

Denatured 95% ethyl alcohol effectively preserves Pap smear specimens and the rigid polypropylene Pap Jar provides excellent protection for the glass slide during transit.

Individual empty and pre-filled Pap Jar bottles with colored caps are also available separately.

Each kit includes 1 Pap Jar filled with 25ml 95% denatured alcohol and the additional components as listed in the table below. Select the kit part number in the table below that includes the desired collection devices. Packaged: 100 Kits/Case
